

## RESIDENTIAL/COMMERCIAL TINTING

Sun damage occurs constantly! It even can indirectly damage the interior of your home. The sun can destroy your furniture, floors, and even those precious items with intense UV rays,

heat, and exposure. Don't let this become a problem in your home. All Pro Window Tinting has the residential window film solution you're looking for! Whether film is needed for glare, heat or fading, a home window tinting solution is possible.

Our residential consultants will provide a free house window tinting estimate, and give you the utmost in customer service and guarantee your satisfaction. All Pro Window Tinting has a complete line of residential window films to handle any type of solar need.

### Application Reasons

- Reduce glare on televisions and computer screens
- Reduce heating and cooling costs
- Increase comfort
- Create privacy
- Virtually clear
- Filter out 99% of the UV rays
- Manufacturer backed warranty

## AUTOMOTIVE WINDOW TINTING

People spend a lot of time in their cars and trucks. The sun's rays cause a number of problems when driving. From the unbearable heat and unstoppable glare, to the fading of the interior of your vehicle, All Pro Window Tinting offers a complete line of automotive window films. All of our window films will make

your vehicle cooler, more comfortable, and more appealing. Automotive window tinting also helps in accidents, as it keeps glass in place rather than flying around. Our trained installers have years of experience when it comes to the installation of window tinting and guiding the customer to the correct window film that will best suit their needs.

### Application Reasons

- Increase comfort
- Block 99% of the UV rays
- Reduce glare
- Protection

### Why Use Window Film?

Today's homes and commercial buildings use more glass than ever before. As attractive as this is, it leads to a host of problems ranging from excessive glare, heat build-up and high energy costs, to the premature fading of carpets, furniture and draperies. LLumar window film can alleviate these problems while providing increased comfort and lower overall costs.

Window film is a great way to protect your investments from the heat, glare, and fading. Not only will it help your home, auto, or business become more energy efficient, it will also increase comfort and safety. With a full line of the highest quality window film products on the market, we offer the very best in performance, color and clarity without compromise.
